## PROFILE

Experienced Full Stack Developer adept in all stages of advanced web development. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. Equipped with a diverse and promising skill-set.

## EMPLOYMENT HISTORY

### Full Stack Developer at Shadow Software Inc., Halifax, NS

August 2019 — Present

Shadow Software is a competitive collective of committed and senior software engineers. Some of my responsibilities as a Full Stack Developer include:

- Creating new full stack features, functionality and capability using Vue, PHP/Laravel & MySQL
- Writing CSS, SCSS and HTML to take the lead in making UX & UI design decisions for 5 applications.
- Evaluate code to ensure that it is valid, is properly structured, meets industry standard and is compatible with browsers, devices or operating systems.
- Wrote performance enhancing features that reduced web application load time by 50%.
- Suggested and implemented features that reduced data entry needs by 80%.
- Collaborate with management or users to develop e-commerce strategies and to integrate these strategies with web sites for over 15 clients.

### Freelance Web Development, Halifax, NS

January 2018 — Present

- Perform or direct website updates.
- Write, design, or edit web page content, or direct others producing content.
- Backup files from websites to local directories for instant recovery in case of problems.
- Renew domain name registrations.
- Develop databases that support web applications and web sites.
- Select programming languages, design tools, or applications.
- Recommend and implement performance improvements.

## EDUCATION

### Diploma - Web Development at Nova Scotia Community College, Truro, NS

September 2014 — July 2016
